the provision of international services has increased enormously mainly due to the precipitous growth of the digital economy accordingly the interpretation and application of double taxation conventions dtcs to income from services has become a dominant focus in the international taxation this multiple award winning book is an indispensable tool for practitioners and a major contribution to the debate about tax reform it responds to the need for a comprehensive overview of the tax opportunities and risks relating to the provision of international services it also offers the first in depth analysis of the taxation of income from services vis à vis the multilateral instrument mli resulting from the oecd s base erosion and profit shifting beps initiative with the thorough analysis of the international taxation of income from services over the last two centuries the author sheds new light on present tax policy debates and develops workable proposals for bringing brick and mortar dtcs into the digital reality with an abundance of case studies treaty interpretations appraisals of policy discussions and practical solutions the author examines every aspect of the subject including the following the model dtcs of the oecd the united nations germany and the united states their similarities and differences relationships among the mli the model dtcs and specific dtcs development of the provisions dealing with services in the dtcs how tax authorities and courts of different countries e.g. the united states germany brazil india and china apply dtc provisions on the taxation of international services opportunities and risks relating to different business practices such as the subcontracting of services provisions the hiring out of labour the secondment of employees and the engagement of contract and toll manufacturers practical questions about the taxation of different distribution models from fully edged distributors to commissionaires challenges and proposals relating to the differentiation between various types of services under dtcs the permanent establishment concept to what extent the structure purposes and scope of dtcs differ from those of the general agreement on trade in services gats how changes in the us model dtc of 2016 affect international service provisions and proposed changes to amending the oecd and un model dtcs viable proposals to simplify dtc provisions dealing with service income and align them with current challenges such as the digital economy and the increasing volume of remote services are offered particularly in light of the likely impact of the beps package and its subsequent mli this book is poised to become one of the key practice resources for tax lawyers in house counsel and policymakers in the coming years interested academics too will benefit from the author s skill in recognizing the ongoing role of taxation fundamentals in the major revolution currently underway

in an age when cross border business transactions are increasingly effected without the transference of physical products revenue concerns of states have led to a multitude of tax

disputes based on the concept of nexus this important and timely book is the most authoritative to date to discuss one of the major tax topics of our time the question of how taxing rights on income generated from cross border activities in the digital age should be allocated among jurisdictions demonstrating in prodigious depth that it is the economic nexus of the tax entity or activity with the state and not the physical nexus which meets the jurisdictional requirement the author a leading authority on this area who is a senior commissioner of income tax and a member of the dispute resolution panel of the government of india addresses such dimensions of the subject as the following whether a strict territorial nexus as a normative principle is ingrained in source rule jurisprudence detailed scrutiny of such classical doctrines as benefit theory neutrality theory and international equity comparative critique of the organisation for economic co operation and development oecd and united nation un model tax treaties whether international law and customary principles mandate a strict territorial link with the source state for the assumption of tax jurisdiction whether the economic nexus based tax jurisdiction and absence of a physical presence breach the constitutional doctrine of extraterritoriality or due process and whether retrospective tax legislation breaches the principle of constitutional fairness the book offers a politically informed analysis of the nexus principle and balances the dynamics of physical presence and economic nexus standards based on an in depth survey of the historical evolution of judicial pronouncements and international practices in this regard dr singh s book exposes an urgently needed missing link in the international source rule literature and takes a giant step towards solving the thorny question of appropriate tax apportionment it sheds brilliant light on the policies states may adopt when signing new tax treaties so that unintended results may be foreseen and avoided tax practitioners taxation authorities and academic researchers in the field of international tax law and policy will greatly appreciate the book s forthright enhancement of the ability to defend challenges based on the nexus doctrine

providing treatment of landlord and tenant matters this book covers both commercial and residential issues the reader is informed with the changing complexities of legislation and case law in this area the coverage of cases and legislation is complemented by practical advice on issues facing practitioners in their daily work
