12 jan 2012 215 what is the purpose of the final keyword in c 11 for functions i understand it prevents function overriding by derived classes but if this is the case then isn t it enough to declare

the quote above is better in context the reason it gives is that interface variables are intended to be java constants the quote was just elaborating on why such a constant would be static and final

in java we use final keyword with variables to specify its values are not to be changed but i see that you can change the value in the constructor methods of the class again if the variable is

```
final static String ze3000sv = "x";
```

```
final static String ccpc = "2025";
```

awaiting eic final decision awaiting me final decision
