this book is an enquiry into memory in the western world specifically memory is the framework of culture because it links the present to the past or tradition and projects it into the future for this reason any work focusing on memory involves a double challenge 1 to reveal the origin of concepts and 2 to glimpse the course of thoughts this is the case of the present volume in which the authors make several tastings of europe s intellectual heritage by taking into account both the greek origin of this legacy and its relevance for understanding the european philosophical heritage in particular these papers focus on the aristotelian tradition the true keystone of europe and on other currents of thought that have also played an essential role in the intellectual evolution of the old continent in the latter field there are contributions for instance on philosophical religious traditions such as orphism or on certain fundamental aspects of neoplatonism both in the classical world and in christian authors the volume concludes with various works on the survival of these intellectual trends from the renaissance to the present day consequently this work offers the opportunity to delve deeper into some of the aspects that define western civilisation observed both from its origin and its evolution over the centuries the volume contains papers in spanish portuguese italian and english este libro es una indagación en la memoria del mundo occidental específicamente la memoria es el almacén de la cultura

porque liga el presente al pasado o tradición y lo proyecta al futuro por ello toda obra centrada en la memoria entraña un doble reto 1 revelar el origen de los conceptos y 2 atisbar el rumbo de los pensamientos este es el caso del presente volumen en el que realizan diversas catas en el patrimonio intelectual europeo lo hace teniendo en cuenta tanto el origen griego de ese legado como su relevancia para comprender el acervo filosófico europeo en concreto se centra en la tradición aristotélica verdadera clave de bóveda de europa y en otras corrientes de pensamiento que también han jugado un papel esencial en la evolución intelectual del viejo continente en éste último ámbito hay contribuciones por ejemplo sobre tradiciones filosófico religiosas como el orfismo o sobre determinados aspectos fundamentales del neoplatonismo en el mundo clásico y en autores cristianos concluye el volumen con diversos trabajos sobre la pervivencia de esas tendencias intelectuales desde el renacimiento hasta nuestros días en consecuencia esta obra ofrece la oportunidad de profundizar en algunos aspectos que definen nuestra civilización observados tanto desde su origen como desde su evolución a lo largo de los siglos

uno de los problemas de la criminología en méxico consiste en que el análisis de los problemas contemporáneos no siempre está fincado en modelos recientes se pretende explicar la realidad del siglo xxi con teorías de los siglos xix y principios del xx por esa razón resulta necesario ampliar nuestro panorama para mejorar los sistemas criminológicos actuales o crear nuevos con los que sea posible aplicar la justicia en el sentido deseado criminología contemporánea es una obra cuyo propósito es introducir al lector a las ideas criminológicas e inducirlo a una reflexión sobre los esquemas de impartición de justicia existentes en esta cuarta edición el autor agrega dos capítulos en los cuales aborda el estudio criminológico de las grandes ciudades para ello utiliza el pensamiento de michel foucault por una parte y por la otra el de robert j sampson
